

ROY SALMON

Commits Suicide in His Office at
Madisonville Tuesday
Afternoon.

WAS WELL KNOWN ATTORNEY AT LAW

Roy Salmon, a well known lawyer of Madisonville, committed suicide in his office Tuesday afternoon. He was found sitting on the side of the bed in a room adjoining his law office by his brother, Dick Salmon. His head was in his hands and blood was streaming from his right ear. His brother quickly summoned a physician and gently laid the dying man back on the bed, but before the physician reached his life was extinct. The pistol with which the deed was committed was found lying on the floor at his feet. Mr. Salmon had been in ill health for several months, and it is thought while in a deponent condition he conceived the idea of putting an end to his trouble by suicide. He was a brother of R. M. and Dick Salmon, of the Crabtree Coal Mining Co., both of whom were in Madisonville at the time of the tragedy. A wife and two children survive him. He was a member of the Elks and also of the Woodmen, and was insured in the latter order. The funeral took place at the Odd Fellows' Cemetery yesterday afternoon at 2:30 under the auspices of the Elk lodge. The many friends and acquaintances of the deceased extend condolence to the bereaved family and relatives.

Former Earlinton Democrat Now a
Leading North Carolina Republican.

The Union Republican, published at Winston-Salem, N. C., in a recent number, tells of the prominent part taken by a former Earlinton boy in Republican politics in Forsyth county. It is no other than Will G. Bramham, who has been made over and elected to the county chairmanship of the Republican campaign committee and is making a mark as a brilliant campaign orator. The article says: "And from being a natural orator, Mr. Bramham has a commanding appearance on the stump and is absolutely fearless. He made the best speech heard in this section for a long time."

Mr. Bramham, while here, was a vigorous Democrat, but has become a lively convert to the Republican faith.

Cards and Pistols.

A quartet of shiftless negro gamblers indulged in a harmless shooting match Sunday afternoon along the railroad outside the limits of St. Charles. None of the balls found fleshly lodgment but the four were corraled by the local officials and, on Monday, taken to the county seat and lodged in jail. Only one of the bunch had any visible support, the rest being unemployed. It is reported at St. Charles that the community has not suffered by the removal. Two of the four lived at St. Charles.

Nice Catch.

Dr. T. D. Renfrow and W. G. Barter are the luckiest fishermen in the city. They can catch fish from Loch Mary when all the other fishermen fail. Only a few days ago Barter caught a nice bass weighing some three or four pounds and Dr. Renfrow caught one last Saturday weighing four and a quarter pounds—by its own scales.

ARRESTED AND FINED

For Bad Behavior at Temple Theatre
When "Why Girls Leave Home"
Was On.

Several of the Earlinton boys and young men were arrested and fined heavily for disorderly conduct and ungentlemanly behavior at Temple theatre last week while the play "Why Girls Leave Home" was on the boards. This behavior consisted in whistling, cat calls and boisterous stamping and greatly annoyed both the audience and actors. Managers McGary and Twyman wish to assure the patrons that no more conduct of this kind will be tolerated and that the best of order will be maintained in future at Temple theatre.

WILL HONOR DRILL TEAM.

Louisville Knights Templar Planning to
Celebrate the San Francisco
Victory.

Louisville, Ky., Oct. 12.—Several different plans are being considered for a testimonial to the victorious Louisville Commandery drill team—a reception, a ball, a banquet—and each plan has its supporters among the members of the committee. It was thought that it would be fully decided at yesterday's meeting, so that the sub-committees could proceed with the other arrangements, and set an early date. But no agreement resulted, and consequently an adjournment was taken. Between now and Friday the committee members will agree on some plan, and will carry it through as quickly as possible. It is intended to make the function, whatever it may be, thoroughly in keeping with the high honor won by the drill team.

W. K. GRIFFIN

Appointed Night Chief Dispatcher at
This Place.

Supt. Jno. W. Logsdon has appointed W. K. Griffin night chief at this place. No better appointment could be made. Mr. Griffin is recognized as one of the most efficient and careful dispatchers on the division and is a general favorite with the men. He will not assume his duties until the return Trainmaster M. Sargeant. Following is the order creating the new office.

Effective Oct. 1st: W. K. Griffin has been appointed night chief dispatcher at Earlinton.
(Signed) Jno. W. Logsdon,
Superintendent.

JUDGE DENNY'S SPEECH

Delivered to Large Audience at Madisonville Saturday.

Judge George Denny spoke at Madisonville Saturday afternoon to a large audience, in the limits of St. Charles. None of the balls found fleshly lodgment but the four were corraled by the local officials and, on Monday, taken to the county seat and lodged in jail. Only one of the bunch had any visible support, the rest being unemployed. It is reported at St. Charles that the community has not suffered by the removal. Two of the four lived at St. Charles.

Judge Denny met the expectations of his staunchest admirers and warmed the hearts of many listening Republicans. An effort was made to get him to speak at Earlinton Saturday night, but the notice was too short.

New Switch Engine For Earlinton Yards.

The L. & N. has sent a new switch engine to Earlinton for work in the yard. This is one of the most powerful switch engines on the division and can handle more cars than one of the large road engines. It is differently constructed from the old style yard engines and can be handled with greater ease. Yard work at this place has been on the increase for some time and it was found the two small engines could not do the work satisfactorily.

TWO COURTS

Are Now Being Held at Madisonville—Special Court Established With Judge Jerry Jonson on the Bench.

TRYING TO CLEAN UP DOCKET.

In order to clean up as quickly as possible the crowded docket, Judge Gordon established a special court with Judge Jerry Jonson presiding.

The suit of Hamby vs. Crabtree Mining Company will likely be completed tomorrow. In this suit the plaintiff asks for damages to the amount of \$4,800, on account of copperas water running over his land and damaging crops, etc.

Friday morning the jury returned a verdict in favor of the defendant in the case of C. Harris and others against L. W. Schmutzer. The suit was for the title of 32 acres of land.

The grand jury returned a number of indictments Saturday. They asked an extension of time until Wednesday and it was granted. The jury is investigating the death of Frank Carnie, the negro who was shot and killed by his wife Friday night.

William Fryer, the negro who killed John Green at Halsey some weeks since, was indicted for manslaughter. He had his case continued until the next term of court. The names of the people indicted and who have not been arrested will be made public when they are taken into custody.

George Berry, a negro charged with shooting at Deputy Sheriff Burke Stanley, was tried Friday and sent to the penitentiary for two years.

Card of Thanks.

Mr. and Mrs. Robert Priest wish to thank their many friends and the doctors, who did so much for their dear little girl in time of sickness.

Y. M. C. A. Convention.

The dates of the Sixth Annual Convention of the Young Men's Christian Association of Hopkins County, have been changed to Nov. 4th, 5th, and 6th.

A very strong programme is being arranged for the occasion. Quite a number of prominent workers and speakers will be arranged for, and will take part in the convention. In addition there will be a Boy's Chorus of nearly 100 voices, made up of boys from all over Hopkins County. This will be a special feature. Plenty of good music will be arranged for.

In addition a trip through the Reinecke mines will be given the visiting delegates. No one can afford to miss this convention that can possibly attend. We are planning for it to be the best ever held in the State.

EARLINGTON SCHOOL

In Fine Shape—Large Attendance—New Series of Books Have Been Procured and Work Has Begun in Earnest.

The Earlinton school, under the management of Prof. Dustin and his able assistants, is progressing nicely. A full number of pupils are in attendance and every room is filled. The new series of books were all secured last week and the children have gotten down to their school work in dead earnest. Prof. Dustin is giving entire satisfaction to patrons and pupils alike and Earlinton has a school all may well be proud of.

FIRE AT ARNOLD MINES.

Engine House Burned—Machinery Slightly Damaged but Work is Hardly Interrupted.

Sunday night the whistle at Arnold mines was sounded vigorously about nine o'clock and a slight glow could be seen against the clouds in that direction. The alarm was persistent but the blaze was evidently small and the many Earlinton men who started at once on foot, horseback, driving, by switch engine, and any way possible to get there and take a hand were puzzled for an explanation. The house in which the air compressing engines were was a small, brick veneered building with a slate roof, and it was this that burned. There being very little wood to burn, no great heat was developed and the damage to machinery was confined to melting of babbling and the destruction of oil cups, small pipe connections and the like. The cause of the fire is unknown, one theory being that an oil torch became heated and pumped oil, spreading a blaze around and catching the woodwork, while the watchman was making his round outside. The engines were overhauled at once and one was ready to furnish power for the mine operations Monday night.

Hard Weather Prediction.

The weather-wise are predicting a hard winter and declare that it is not far off. In proof of their forebodings they cite the fact that the sluck on the corn is not only unusually thick but extends out over the ear farther than common. The skin on the onion is also said to be unusually heavy which is regarded as another sure sign. Hunters say that the fur on rabbits, squirrels and other game is more abundant this year than for several years past, which is a never failing indication of a hard winter. The goose bone specialist has not been heard from yet, but in the light of these harbingers it is expected that he will join in the chorus for a record breaking siege of cold weather.

Had Foot Cut Off.

Mike Murphy, who was a switchman in the yard at this place, had the misfortune to have his foot cut off Friday by the incoming Providence train. It seems he had jumped on one of the coaches and when getting off stepped on a lump of coal, his turned and he was thrown in such a position that his foot fell under the wheel and was cut off by the wheel passing over it. He was at once removed to the St. Bernard hospital, where his wound was dressed by Drs. Chatten and Johnson. He was taken to his home at Nashville Saturday afternoon on 51 and is getting along nicely at present.

Married in Madisonville.

Miss Jetta Small and Mr. Sam Rainey, both of this place, drove to Madisonville Saturday night and were married at the Methodist parsonage by Rev. Adams, the minister at that place. Miss Small is a sister of Mrs. Robert Davenport and a charming girl who has many friends in this city. Her people, however, live in Allensville, Ky., and are among the first families of that place. Mr. Rainey is a rising young railroad man of this place and has quite a number of friends. The happy couple will go to housekeeping as soon as arrangements can be made.

Happy is the man who has a red headed girl for the lights of his life.

CONFEDERATE VETERANS

Pass Resolutions of Thanks to City of Earlinton, J. B. Atkinson and Others

WHO MADE REUNION HERE SUCCESS.

At a meeting of Camp 528, United Confederate Veterans, held at the city hall in Madisonville, on the 8th day of October, 1904, the following resolutions were unanimously adopted:

That we tender to the city of Earlinton our sincere thanks for its hospitality and kindness extended to the ex-Confederate Veterans at their reunion at said city on the 21st of September, 1904.

That we will gratefully remember the many attentions shown to this Camp and its many visiting comrades by the citizens of said city, irrespective of all past unfortunate differences, and we most sincerely thank J. B. Atkinson for his constant attention to the pleasure, comfort and entertainment of our visiting friends and the members of this Camp.

That to the noble Daughters of the Confederacy and the glorious women of Mortons Gap, Earlinton and Madisonville and Hopkins county this Camp owes a debt of gratitude which we can not pay except by the tender thankfulness of our grateful hearts, for to them is due the greater part of our success in holding our said reunion.

That we have no words to express the gratitude to the patriotic Daughters of the Confederacy, Mrs. A. E. Reese, Miss Mollie Whalen and Miss Lillie Harris, who made with their own tender hands the beautiful banner which they tendered to this Camp on the occasion of the reunion. We promise to guard and protect it as a sacred memorial and souvenir of the Lost Cause.
A. L. TINDER, Commander.
A. E. REESE, Secretary.

Clean Up Your Premises.

The sanitary conditions in some parts of the city are fearful and should be attended to at once. This is the dry season of the year when sickness of all kinds is most likely to prevail and the best way to prevent this state of affairs is to put your premises in good condition by giving them a thorough cleaning and using plenty of lime. Do not neglect this as it is very important and may save you from a long spell of sickness.

Tom Carney, Colored, Shot in Madisonville Saturday Night.

Tom Carney, colored, of Madisonville, was shot and instantly killed by his wife late Saturday night. Carney went home from the street fair drunk and, began abusing his wife, when she in self defense took a pistol and shot him through the breast, killing him instantly. Carney was the chief witness for the prosecution against Louis Wilbert, the white boy who is now in jail at Madisonville on the charge of killing Gus McIntosh at Mannington several months ago. It is thought by some the death of the negro, Carney, will be the cause of a much lighter sentence being imposed on Wilbert.

Died.

Herbert, the youngest child of Mr. and Mrs. C. S. Morris, of Princeton, Ky., died in that city Saturday of flux and was interred in the Princeton cemetery. Mrs. Morris is a sister of J. E. Fawcett, of this city. Friends of the family extend sympathy.

Often the father of lies feels that he has a rival when a man is trying to explain to his wife where he was the night before.

FRANK MONROE ROBBED.

Former Editor of Hopkinsville Independent
Loses Watch and Money at Fulton.

Frank Monroe, former editor of the Hopkinsville Independent, but now a traveling man, was "touched" for \$18 in cash and a \$65 gold watch while spending Sunday night in Fulton, Ky. He retired and neglected locking his door. Three men, suspicious looking characters, who had been watching him during the early part of the night, are suspected of the theft. They lodged at the same place and left before daylight.

New Skin Game.

Here's another new skin game. A man walks into a store and buys \$5 or \$10 worth of goods, tells the store keeper to keep the goods until he calls for them at a certain date and gives a \$50 or \$75 check on a bank for payment. The check is taken to the bank and returns marked N. G. At the date given the man comes in for his goods, is informed that the check is not honored. He cusses the bank but pays for the goods, starts for the door then walks back and asks for the check. He gets it with the merchant's endorsement. In a few days the merchant is notified by the bank of a check cashed bearing his endorsement. The merchant then weeps.

Died.

Monday morning at 8 o'clock little Lucy Caine, the only child of Mr. and Mrs. Robert Priest, of this city. The little one had been sick only a short time and all that skilled physicians and loving friends could do was done. The interment took place at the Earlinton Cemetery Tuesday at 10 o'clock. The remains were conveyed to the grave by six little girls dressed in white who acted as pall bearers. Flowers in quantity were furnished by loving friends and some beautiful designs were made. The sorrowing parents and relatives have the heartfelt sympathy of friends and acquaintances.

Hon. Augustus E. Wilson at Elkton.

Elkton, Ky., Oct. 10.—Hon. Augustus E. Wilson, of Louisville, spoke to a big crowd at the courthouse in this city this afternoon. His speech was well received and will make many votes for the Republican ticket. Mr. Wilson is an orator, and Theodore Roosevelt never had a more valiant champion.

Hon. Walker Wilkins made a short, forceful talk in presenting the speaker.

Guard Mount at the Armory.

After the regular drill Monday night, Co. G went through guard mount at the Armory, showing every detail of the movement as practiced by the regiment on the field. Capt. Price was officer of the day, Lieut. Powers officer of the guard and Lieut. Rodgers Sergeant-Major. It is very essential that all soldiers become familiar with guard mount and those who were not on hand missed a very valuable lesson.

Y. M. C. A. Building for Hopkinsville.

The Young Men's Christian Association of Hopkinsville have just completed their canvass for \$15,000 necessary to build the splendid new building and are now in shape to put the project through in short order. The local committee on solicitation has been materially aided by Secretary Coulter and State Secretary Henry E. Roosevelt.

One of the strongest musical comedies booked by Merton's Theatre is Harry B. Smith's famous "Liberty Bells," which will be seen there at an early date. This is not a number two company but absolutely the original and only company appearing in this rollicking opera. The cast embraces some forty artists, twenty-five of whom are girls said to be the prettiest ever seen in a musical play or beauty show. The date will be announced shortly.

Morton's Theatre announces the early engagement here of Harry B. Smith's charming musical comedy, "The Liberty Bells," which ranks as about the best musical comedy production this gifted author has ever produced. This attraction continues to pack the theatres wherever it appears and is said to be better and bigger than last year. Some forty people selected from the front rank of the profession compose the organization and a first class entertainment may be looked for.

Mr. and Mrs. John Trathen, of Idaho Springs, Colo., are visiting the family of Mr. J. B. Trathen, President of the Oak Hill Coal Co., at Chesley, after a delightful time spent by members of the two families together at the World's Fair. Mr. Trathen is in the furniture and undertaking business at Idaho Springs and fills the office of corner for Clear Creek county. He was mayor of Idaho Springs for two or more terms prior to his election as corner. Twenty-seven years ago he worked at coal mining with his brother, J. B. Trathen, in the old Diamond Mines at Mortons Gap. Mrs. Trathen may remain in Kentucky for the winter.

Good Spirits

Good spirits don't all come from Kentucky. Their main source is the liver, and all the fine spirits ever made in the Blue Grass State could not remedy a bad liver or the numerous and one ill effects it produces. You can't have good spirits and a bad liver at the same time. Your liver must be in the condition if you would feel buoyant, happy and hopeful, bright of eye, light of step, vigorous and successful in your pursuits. You can put your liver in fine condition by using Green's August Flower—the greatest of all medicines for the liver and stomach and a certain cure for dyspepsia or indigestion. It has been a favorite household remedy for over thirty-five years. August Flower will make your liver strong and active and thus insure you a liberal supply of "good spirits." Trial size, 25c; regular bottles, 75c. At all druggists.

A Production of Quality.

For some reason which no one seems to be able to explain, last season was by all odds the most disastrous one for twenty years to the theatrical profession. Dozens and dozens of fine organizations went to the wall of financial distress, and fortunes were lost by various theatrical firms.

The result of this has been that this present season sees a dearth of attractions of the better kind. Advice from New York at the opening of the season showed that not half the number of attractions look to the road this year as went out the season before. All this makes it harder for the one night stand manager to secure first class attractions, and Managers McGary & Tryman are to be congratulated on being able to secure Mr. Joseph Shipman's fine Shakespearean Company for one performance of "Twelfth Night" at the Temple Theatre on Saturday, Oct. 16th.

The one night stand played by this company are few and far between, and the fact that our city is on the list at all is due to the enterprise of our local managers. Miss Charlotte Burnett is the star and will be seen as "Viola," and a large and thoroughly capable company is supporting her.

A Prominent Trainman.

POPULISTS IN TROUBLE.

Fail to Get Congressional Candidates on Ballots in Kentucky.

Frankfort, Ky., Oct. 11.—By an oversight of the leaders of the People's party in Kentucky the several candidates of that party for Congress in the Western and Southern part of the State will not get their names on the official ballot to be voted in the November election.

The party, not having cast 2 per cent. of the total vote in the last general election, is required to get its candidates on the ballot by petition of citizens. The leaders presented to the Secretary of State a petition to get its electors a place, but overlooked candidates for Congress.

ROBBERS AT THE WRECK.

Many of the Bodies of the Dead in the Missouri Pacific Wreck Robbed of Belongings.

Warrensburg, Mo., Oct. 11.—Shortly following the wreck on the Missouri Pacific, Monday morning, and before the dawn of day, thieves, who were apparently on the track, robbed a number of the dead. One lifeless woman had \$75 and a gold watch stolen from her while she was planned under a seat. Many others of the dead were robbed, and their pockets left turned wrong side out.

The Cloak and Fur Season is Here

WE are loaded down with all of the very latest things in the way of **Ladies' Misses' and Children's Jackcoats** for the fall and winter wear.

Never before have we shown such an enormous line of these goods as the present season, and the principal beauty of the purchase of one of these garments is that it does not take everything one possesses to own one of them.

There are Five (5) distinct styles shown this season and we have a great selection in each and every style, both in colors and range of price.

You will not have done yourself full justice if you buy without first seeing our showing of this season.

HAPPENINGS IN KENTUCKY.

Paducah, Ky., Oct. 11.—The Paducah and Evansville packet boat Dudley, sank eight miles above here at 4 a. m. by striking a sunken wreck, but the passengers were saved. The boat is owned by Capt. T. J. Ryman, of Nashville, but was chartered to the packet company, and is worth \$10,000. She can be raised.

A Bowling Green man has sued another for \$3,000 damages for asking him where "he got the whisky" when the plaintiff fell helpless in front of the defendant's store. Now isn't that somewhere the limit?

Owensboro, Ky., Oct. 10.—Sam Lipnick, a local merchant, was robbed of \$200 this afternoon. He was preparing to make a deposit, and put his bank book down on the counter to wait on a couple. They left and he missed the bills from the book. Last week a negro passed a money order raised from \$5 to \$50 on Mr. Lipnick.

Smith's Grove, Ky., Oct. 11.—The large tobacco barn belonging to L. B. Porter, of this place, burned down near Kepler. Several thousand sticks of tobacco were in the barn, besides a lot of hay and farming implements. The loss is about \$3,000, with no insurance.

The gunboat Paducah was launched on the Harlem river at Morris Heights, N. Y., Oct. 11. Miss Anne May Yeiser, of Paducah, the sponsor, broke the bottle of champagne over her bow. Following the launching a luncheon was served to the party.

MINING NOTES.

It is expected that Cripple Creek, Col., will be the meeting place of the Trans-Mississippi Commercial Congress next year. The business men are anxious to visit "the greatest coal camp on earth," whose production of the yellow metal for the last ten years, if made into \$20 pieces and placed edge to edge would make a continuous band of gold from New York to San Francisco.

Mr. Henry Harris is foreman at the Arnold mine this week while Mr. Jno. Rule is absent.

Frankfort, Ky., Oct. 11.—State Geologist C. J. Norwood came here from Lexington today and filed with the Governor reports of work he has completed, is the law requires. He made a report on the oil and gas rocks of the State of Kentucky, and another on the geology of the county of Breckinridge. The report on oil and gas rock is quite an exhaustive one. Both reports will now be printed for distribution, and the distribution will be made from the offices of the geologist at Lexington.

Mr. W. L. Jarvis, president of the Jarvis Coal and Coke company, of Greenville, Ky., has resigned on account of ill health and W. A. Wickliffe has been elected to succeed him.

Mr. John G. Matthews, president of the First National Bank, of Louisville, Ky., confirms the report that a spur road of a little more than a mile long will be built from the Louisville & Nashville Railroad near Elly, where he is opening a new coal mine and which he hopes to have ready for operation in a short time.

Elmer Witherspoon, of the Hecla mine, is on the sick list this week.

FEARFUL WRECK ON MISSOURI PACIFIC

Twenty-Eight Persons Killed and Upwards of Thirty Injured, Some Fatally.

VICTIMS WERE EXCURSIONISTS ON THEIR WAY TO WORLD'S FAIR.

The Second Section of No. 30 Collided With a Freight Train, Both Going at High Speed, Near Warrensburg, Mo., Resulting in a Fatal Wreck.

Warrensburg, Mo., Oct. 11.—Twenty-eight persons were killed and 60 injured by a collision of Missouri Pacific trains three miles east of Warrensburg, at four o'clock Monday morning. The trains were the second section of passenger train No. 30, which left Wichita, Kas., for St. Louis Sunday night, and an extra freight train. The dead are in undertaking rooms in this city, and most of the wounded are in the railroad hospital in Sedalia, Mo.

Mrs. Nellie Resm, Bronaugh, Mo., right leg broken in two places, right shoulder dislocated and head cut.
Mrs. Elizabeth Country, Adrian, Mo., side injured, ankle mangled.
J. D. Hale, Dexter, Kas., left leg broken.
Ruth Standefer, Cherokee, Kas., aged ten years, leg scalded and badly bruised about body.
Mrs. Julia Nood, Oxford, Kas., injured about head and ankles.
Ed. Henson, Cherokee, Kas., engineer train No. 30, hurt about head and ankles, spine injured.
The passenger train, consisting of two day coaches, a Pullman and a caboose, was loaded with the world's fair excursionists from southeast Kansas and southwest Missouri. The regular passenger train No. 30 had been cut in two at Pleasant Hill in accordance with the heavy load and the engine attached to the front car without a baggage car as a buffer.

The extra freight had sidetracked at Montserrat for the first section of No. 30, which carried signals that a second section was following. This was followed by passenger train No. 50, which the freight train took for the second section of No. 30. The freight pulled out of the sidetrack, and three miles west met the second section. The impact telescoped the cab of the passenger engine into the front car, which was loaded with the world's fair excursionists. It was here that the sacrifice of life took place. The passenger conductor, E. L. Barnes, ran all the way to Warrensburg and brought the news of the wreck. Every physician in the town responded, and hundreds of citizens hastened to the wreck and assisted the wounded from beneath the cars. Many of the broken cars. Twenty people were killed outright, and seven died before eight o'clock. The dead were placed on flat cars and brought to this city, and Dr. Ellis, the coroner, immediately impaneled a jury and started an inquiry, which is still in session. The afternoon was taken up with identifying the bodies, and Monday night the conductor of the freight train was on the stand. He claims to have been doing while his train was at Montserrat, and that the train No. 50 passed, Engineer Horton believed it was the second section of No. 30, and thinking the track clear, pulled out on the main line.

W. C. Dress, postmaster at Eastonville, Kas., was taken out from under a heap of seven bodies, and escaped with nothing more serious than a broken leg.
Dowager Empress Recovered.
Copenhagen, Oct. 11.—The dowager empress of Russia, who is on a visit here, and who has been suffering from lumago, is now recovered.

THURSDAY, OCT. 15, 1904.

A LOUISVILLE paper published a picture of a young lady and labeled it "Rarely Attractive." This title might be dangerously double in its meaning.

A news dispatch tells of fifteen deaths in eight days in New York, attributed to impure liquor. The coroner is investigating. There is no report upon the number of deaths caused by pure liquor.

In North Carolina the registration of voters is spread out over twenty days prior to election and the books must be kept open between the hours of 9 o'clock, a. m., and sunset each day. Its a quicker process in Hopkins county towns under the new law.

The Washington Star intimates that all the pretty girls have gone Republican when it says: Better out ready-made clothing and better made shoes and hats are going on the shelves of the country stores. Rural maidens read the fashion notes and the aids to beauty and the girls with a home-made look are becoming scarcer.

REPUBLICAN leaders claim that polls of first voters in various parts of the county indicate that 90 per cent. of the young men will vote for Roosevelt, whose manly vigor and clear cut position on all issues is a winning argument with men in the vigor of their youth.

The Farm and Store is a new publication issued at Paducah by the Messrs. Thompson, who formerly for some years were publishers of the Paducah Daily and Weekly News. The new paper proposes to reach the farmers and merchants in a large scope of territory about Paducah. The initial number promises well for a useful future.

This President has also captivated Antonio the chief of the Igorrotes, who now declares himself ready to go after the head of any Filipino leader who dares to fight Uncle Sam. Antonio recently visited the White House and thought "President Roosevelt nice man, good man, like Dr. Hunt, talk so kind to Igorrotes, and such a beautiful man with nice light eyes and fine teeth."

A WEALTHY Connecticut woman who recently died left \$15,000 to Berea College, in this state, and similar amounts to other institutions of learning. Wealthy men and women both during their lives and in their wills are daily bestowing princely and munificent gifts for the elevation and welfare of their fellowmen. They are proving that the possession of wealth does not make the possessor the enemy of the "common people," the grinder of the poor. They are contributing to the bringing about of a "do unto others as you would that others should do unto you" millennium.

Many Compliments.

Paul M. Moore, editor of the Earlington Bee, has received many compliments from editors in various parts of the State upon the special edition of THE BEE, which was issued upon the occasion of the reunion of the United Confederate Veterans. The paper was bright and well illustrated. Mr. Moore also got out an attractive souvenir postal card, one side of which was half-toned from a photograph of picturesque Loch Mary.—Louisville Times.

Like a Comet

This famous remedy does for the stomach what which it is unable to do for itself, even if but slightly disordered or overburdened.

Kodol supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles and membranes of the organ are allowed to rest and heal. It cures indigestion, flatulence, palpitation of the heart, nervous dyspepsia and all stomach troubles by cleansing, purifying and strengthening the membranes of the stomach and digestive organs.

Young Lady Transforms Herself Into a Boy.

For some reason unknown to the writer the ladies of the stage are the happiest when appearing as the opposite sex. Perhaps the dear creatures want to show "mere man" how much better men they can be. Whatever the reason may be, a lady "star" is thoroughly happy when her manager announces that for the coming season he will produce a play in which the leading role is a woman masquerading as a boy or man.

"Miss Charlotte Burnett, the 'star' of Manager Joseph Shipman's production of 'Twelfth Night,' is no exception to the rule."

The audience who will attend the Temple Theatre on Saturday, Oct. 15, can rest assured that however much they are enjoying themselves, the lady who will be the central attraction is enjoying herself more. Miss Burnett has found in "Viola" a part which, to use her own words, is "one that frightens her, but is none the less charming." This is because she feels in playing "Viola" she is endeavoring to portray Shakespeare's ideal woman, the most lovable, charming and entrancing of the long list of Shakespeare's lovely women. We are promised a rare treat when this superb company comes here. Very few one night stands are being played, and great praise is due to the enterprise of Managers McGary & Twyman.

It is asserted by a sculptor that the human foot is becoming smaller. The masculine foot of 20 centuries ago was about 12 inches long. The average man's foot of today is easily fitted with a No. 8½ shoe, which is not more than 10 7-16 inches in length.

An effort is being made to secure the house in which Robert Fulton was born, and in which he lived for a great many years, at Lancaster, Pa., that it may be preserved in its original condition. The house stands today just as it did when the inventor of the steamboat resided in it.

We do not have to guess at our convictions and then correct the guess if it seems unpopular. The principles which we profess are those in which we believe with heart and soul and strength. Men may differ from us, but they cannot accuse us of shiftness.—Roosevelt's Letter of Acceptance.

A THOUGHT FOR THE WEEK.

The editor of an advertising periodical wrote to a number of retail druggists asking about the sales of certain articles which were not. As a result he says: "The inference is indisputable. What sells goods is not price protection, not retail friendship, not shopkeepers' pushing, but advertisement, advertisement, advertisement."

One of Many.
H. A. Tisdale, of Summerton, S. C., suffered for 20 years with the piles. Specialists were employed, and many remedies used, but relief and permanent good was found only in the use of DeWitt's Witch Hazel Salve. This is only one of the many many cures that have been effected by this wonderful remedy. In buying Witch Hazel Salve it is only necessary to see that you get the genuine DeWitt's made by E. C. DeWitt & Co., in Chicago, and a cure is certain. DeWitt's Witch Hazel Salve cures all kinds of piles, cuts, burns, bruises, eczema, scabies, ringworm, skin diseases, etc.

THEODORE ROOSEVELT

A Man of Action, Who Can Be Relied On in Emergencies—Fearless and Non-Executive.

Theodore Roosevelt occupies a unique position in the estimation of the American people. It is not that other men in public life are not honest, or earnest or incorruptible—these qualities are not rare. It is that Mr. Roosevelt combines them in an unusual way. He is possessed of great physical vitality and mental energy; he has of his own taste and his own motion entered into various occupations that have put him in touch and sympathy with all classes of men, high and low. When he was a ranchman he made the cowboys his friends so that they became a soldier they claimed to be of his regiment. He became police commissioner in New York for not "the money there was in it," was the custom of New York, but to see that certain abuses were remedied. They were remedied in spite of the opposition of other members of the board. He became assistant secretary of the navy in order to carry out certain plans of naval progress. He enlisted in the Spanish war from patriotic motives and made a record. He was elected governor of New York on account of his public services and was nominated for vice-president against his own wishes for the same reason. In all these positions and as president of the United States he has done his duty fearlessly and honestly. His people have learned to regard him as a man of action; as a man who does things and who can be relied on in an emergency. In common phrase he is regarded as a man "who will do to the top."

Against such a record as this the negative record of a man who has done nothing but write legal opinions and endorse Democratic platforms amounts to nothing. As a man of executive ability and of action Judge Parker is "not in it."

The Best Doctor.
Rev. B. C. Horton, Sulphur Springs, Texas, writes, July 19th, 1898: "I have used in my family Ballard's Snow Liniment and Horchond Syrup, and they have proved certainly satisfactory. The liniment is what we have used for headache and pains. The cough syrup has been our doctor for the last eight years." 25c. 50c. \$1.00.

Nearly All For Roosevelt.

William F. Crenand, publisher of the Textile Trade Journal at 373 Broadway, New York, has just completed a canvass of the trade publications to learn their attitude toward the national ticket. These publications are non-partisan and as a rule do not allow political discussions to appear in their columns. Mr. Crenand's canvass shows that out of 888 of these publications 768 are for Roosevelt and Fairbanks.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was badly affected. I also had a lump in my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two 60c bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." 25c. 50c. \$1.00.

Good for Children.

The pleasant to take and harmless One Minute Cough Cure gives instant relief in all cases of cough, croup and laryngitis, because it does not pass immediately into the stomach, but is absorbed into the system at the seat of the trouble. It draws out the inflammation, heats and soothes and cures permanently by enabling the lungs to contribute pure life giving and life sustaining oxygen to the blood and tissues.

Consumptives Made Comfortable.

Incapable consumption is cured by Foley's Honey and Tar, but we do not hold out false hopes to consumptives by claiming that it will cure this dread disease in the advanced stages; but if the lungs are not too far gone Foley's Honey and Tar will effect a cure, as it stops the racking cough and all soothes the inflamed air passages giving them a chance to heal, and even in the advanced stages it always gives some comfort and relief. A. A. Herren, of Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs and lung trouble. I know that it has cured consumption in the first stage."

Though cotton raising in a way has engaged some of the farmers in the southern section of the "Purchase" for years, there was a larger acreage planted this year than ever before. It is stated as a fact that about four thousand acres in the counties of Graves, Hickman, Fulton and Carlisle were sown in cotton the past season and that the crop was a good one too. Next year is likely to see the acreage largely increased especially if the prices continue to hold up as they are now.—Farm and Store.

It is a good idea in the fall to make an inventory of the stock you have on hand and expect to winter and see whether the corn cobs and rough fodder bear a right relation to the stock. This trying to winter cattle at such stacks and in cornfields alone is a miserable business, and some very cruel work is done in this line every year by men who otherwise take as pretty good fellows. As it never pays in the long run to do this, we often wonder why men will keep doing it.

Many housekeepers have to put up with a good deal of waste in the use of cheese as a part of the family ration. As a generally used, more or less dried up and spoiled. Here is a better way: Take the cheese when bought and run it through a sausage cutter. Pack it as firmly as possible in glass tumblers and cover the top with a piece of paraffin paper. Set in a cool place. By so doing the cheese will keep perfectly and not a morsel will be wasted. We have followed this plan for years.

The harvesting of the crops raised

on the farm is always a most delightful kind of labor for us, particularly the picking of the fruit and the husking of the corn. When one gets a basket of big apples or of well matured corn he has something tangible in money value very happily blended with sentiment.

We have several reports of birds nesting for a second or third time this season, being engaged in this domestic work as late as the first week in September. The wise ones take this to mean that the winter is farther off than usual, the instinct of the birds making them willing to run the risk of rearing a brood to an age which will still permit of the migration of the young to the south.

A lusty burdock reared its head this season near a barn. When just ready to bloom it was cut down with a spade and all thought it had been finished. Another blossom stalk, much smaller than the first, appeared. It was cut down again; but true to the law which governed its life, it made a third and last attempt to reproduce itself by sending up a tiny stem with just one seed but on it, and it was allowed to grow. There is a lesson for us, at least, in the persistency of this miserable thing.

Some one inquires why so many of the oak trees are dying all over the country the past few years. The cause is mainly found in the fact of settlement and the occupancy of land for farming purposes. This process upsets forest conditions, the snapping of stock and the growth of matted blue grass robs the tree of moisture, and it falls an easy victim to drought. The jack oaks go first, followed by the death of the bur oak, one of our hardiest trees. It is not climatic conditions which cause the death of the trees, but civilization.

It is surprising how the grain sack has been eliminated from the economy of the modern farm. The demand for sacks at thrashing time has almost entirely removed, the modern machine elevating the grain as thrashed into the wagon box, where it is moved in bulk to the elevator or the granary. The disappearance of the sack has removed a source of almost endless trouble, for the honest farmer could never keep his sack, while the other fellow now has no chance to steal them. Every modern improvement tends to better farm morals.

Tenant farming—renting land on shares or for cash—is not a rapid way to pile up money, and many men who do this business never develop into anything better than a farm renter. Some do, however. They move slowly at first, but gradually accumulate a valuable lot of stock and tools and at the end of a few years feel justified in buying a farm of their own. We are inclined to the opinion that when a man can lease a farm—a good one—for five years or the share plan, keeping all the live stock possible, he will insure his success more surely than by any other plan.

Plowing is still considered quite an art in the old world and was also in this country until within a few years. The plowman who could draw a perfectly straight furrow a hundred rods, who could keep his plow at an even depth and nicely cover up all rubbish, was a man of mark in his locality, but the advent of the sulky plow has made machine work of what was formerly a matter of human skill. The modern plow, adjusted to cut an even depth and

width of furrow, drawn by three or four good horses, is largely and well operated by small boys from ten to fifteen years old and quite often by girls, a minimum of human labor and skill being now required to secure the best of work.

There seems to be altogether too much parasite life in this country. Insect, bird and animal life—which lives off others' labor, and this is not the worst of it, for we have lots of humans who are just simply parasites in the rankest sense. If a man who will let his wife take in washing to support the family while he loaf around the saloons is not a parasite we would like to know what is, and the worst of it is that the women won't let this sort be killed off.

Europe is full of half starved people—men and women to whom a good square meal is almost a thing unknown while America is full of half starved fields and farm animals battered and abused for long years and ever hungry for clover, rest and decent treatment. The condition of the half fed poor of the old world is almost impossible of improvement. The impoverished souls of this country can be helped if men only had sense enough to do it.

The total government receipts from tobacco from all sources were \$4,655,308.76 for the fiscal year, against \$3,841,810.94 for the fiscal year 1903-4, or an increase of \$1,140,998.51. This increase is participated in by all branches of the trade, except cigar manufacturer—here we see a decrease of \$286,756.01. As cigar manufacturing shows the worst condition, so tobacco manufacture shows the best condition. Receipts for this branch of the trade exceeded the receipts for the present fiscal year by \$977,890.02.

Railroad managers, bank presidents and business men generally are calculating on a continuance of the present prosperous conditions because crops are good and prices for farm crops are good, with rising tendencies. Keep the farmers prosperous and this country cannot have hard times.

It matters not how expert farmers become in producing grain, fruit or fat stock, some new form of exploitation will be discovered by the class of people who live on their wits and produce nothing to relieve them of everything but a bare living. They may go ahead some years only to slip back other years. This will be kept up until they make their own prices.

Military Parades, Reception and Military Ball the Features.

Fifty Thousand Missourians Helped Swell the Throng in Honor of the State's Day.

St. Louis, Oct. 12.—With military parades, addresses by prominent Missourians, concerts by famous bands, a reception and ball and a great lunch for all visitors, Missouri celebrated at the World's fair Tuesday.

By special proclamation Gov. Dockery named Tuesday, October 11, Missouri day, and urged all good Missourians to keep it as a holiday and do their part toward furnishing a record-breaking attendance at the World's fair. Special trains from the cities and special cars from the towns arriving Monday and Tuesday attested the head which the people of the state have paid to the proclamation. The Missouri commission estimates the day's attendance of Missourians at 50,000.

The big state pavilion was elaborately decorated for the occasion. Within southern smiles, roses and cut flowers have been used lavishly. Great fountains of flowers and garlands of the collins adorn the galleries and the columns which support them. The fountain in the center of the reception hall seems to spout from a bower of blossoms and foliage, completely hiding its source. The exterior of the pavilion is draped with red, white and blue and the exposition colors.

Military display was the main attraction in the day's celebration. Three thousand troops have been in camp at the World's fair for a week awaiting this day. These, with the First regiment, whose headquarters are in St. Louis, and 2,500 Ohio troops in the parade which formed near the Administration building. Maj.-Gen. John C. Bates of the United States Army, as the grand marshal, and 1,500 regular troops from Jefferson barracks and the Philippine reservation joined with the militia.

Gov. Dockery and his entire staff, as well as the members of his cabinet, came from Jefferson City in a special train Monday night and rode in the parade.

In the evening the Missouri commission gave a reception and military ball in honor of Gov. Dockery at the state pavilion.

HE USED DULL CLIPPERS

Chicago Barber Murdered By Man Whose Hair Was Being Cut.

Chicago, Oct. 10.—Because he was using a pair of dull clippers, Charles Alexander was murdered here Sunday by James Thomas, the man whose hair was being cut. When Thomas complained that the clippers were dull, Alexander used sharp ones and was putting his hair instead of cutting it, the barber struck him. In the fight that followed, Thomas got possession of the clippers and slashed his antagonist's throat. Alexander died almost instantly, his jugular vein having been severed. Both men were colored.

Thomas was once a policeman in Cairo, Ill.

10 RUSH THE FRAUD CASES

Prosecution of Naturalization Frauds in New York Will Include All Nationalities.

New York, Oct. 11.—United States District Attorney Henry L. Burnett issued orders Monday to his assistants, Joel M. Marx and Clarence H. Houghton, who are prosecuting naturalization frauds, to extend that work to include all nationalities. For months the investigation has been confined to Italians, but latterly it has taken in the Jewish quarters of the city as well. Acting under the orders of the federal officers, secret service detectives recently began work of the kind in the lodging house districts.

Daniel Lynch and John J. Sullivan have been arrested and held by United States Commissioner Shields upon the charge of having been found with illegal citizenship papers in their possession. Sullivan, charged with the prosecuting officers to have had papers issued by the courts in Silver Bow county, Montana. Papers of this description, which are termed "naturalization papers," the authorities say, purport to show that the holders are entitled to full rights of citizenship, whereas the Ellis Island records show that the men who have presented them and attempted to land, came to the country for the first time but a year or two before their issuance. The papers in Lynch's case bear date of Boston, 1905, and were obtained from the United States circuit court there.

Democratic Candidates Numerously Announced and More Coming.

The number of candidates for office announced subject to the action of the Democratic party in Hopkins county increases and there are yet others to follow. The primary is set for December 10, to nominate candidates to be voted for in November, 1905. That election is a long way off but by fixing the primary thus early every candidate for Democratic preferment has been made a missionary to endeavor to increase the county vote for the Democratic presidential candidate this year. Notwithstanding this fact there are those among the staunch free silver, Bryan Democrats who are out of time with Judge Parker and who will refuse to support the party's national ticket this year.

The latest Democratic announcement is that of our own townsman, James R. Rash, who is out for the nomination for representative. The other announcements through the newspaper columns for this office are Esq. J. H. Shaw, R. P. Teague and Peter Berry.

The announced candidates for county judge are R. B. Bradley, the present incumbent, and J. W. Wilson. Judge Bradley had no opposition for the nomination for this year's election to this office, to which he had been appointed to fill the unexpired term of Judge C. C. Givens. Under the circumstances the law requires him to stand for election both this year and next if he desires the office. The Republicans have named Letcher R. Fox to contest for this office at the coming election.

The candidates for county court clerk are D. S. Edwards, Sam D. Langle, J. W. Thompson and Will T. Mills.

For sheriff these have announced: Burke Stanley, John Speed, Sam C. Jennings, Sam Powers, Jack Nisbet, F. A. Oates and S. W. Offutt.

For assessor, W. H. Whitfield, J. Marshall Ashby, C. F. Egbert and Jas. T. Gooch.

For superintendent of schools, W. B. Davis, J. M. Browning, A. J. Fox and R. L. Ferguson.

There is only one candidate announced for county attorney, Ruby Laffoon, who asks reelection.

The lists are crowded with candidates jailer, the most sought for office in the people's gift. Here are those who would carry the keys: Lawrence Kilroy, Z. T. Craig, Jno. L. Simms, W. H. Jenkins, L. D. H. Rodgers, J. T. Fowler, Elisha Moore, A. J. Howell, Noah L. Day, J. M. Whitsell, G. H. Russell and Jno. Wesley Gatlin.

The announced candidates for magistrate are Jesse Phillips, for Earlinton district; Green Clark and H. B. F. Whitson, for Curial district; M. F. Ashby, for election in the Hanson and Oak Wall district; W. D. Stodghill, third district.

Jno. P. Hanks wants to be constable of the Curial precinct. If there are any other aspirants they have not found their way into the newspaper announcements and hence need not be considered as being at all in the race. A political candidate can no more get votes in paying quantities without using newspaper space than a business man can build up a large and paying business without using the same agency—liberally.

LOCOMOTIVE BLASTS

Comparative Statement Covering September 1st to 10th.

The Louisville & Nashville Railroad Co. has issued the following comparative statement of estimated gross earnings:

For the fourth week of September, 1904, earnings were, \$1,018,656; corresponding week of last year, \$906,364; increase, \$23,201.

Total for four weeks of September, 1904, was, \$3,183,890; corresponding period of last year, \$2,812,344; increase, \$371,546.

July 1 to latest date of year, \$9,201,389; corresponding period of last year, \$8,167,514; increase, \$1,033,875.

The Pullman palace car in which the members of the Kentucky Bankers' Association were taken over the Louisville, Henderson & St. Louis railroad to St. Louis Tuesday night of last week was the finest sleeping coach that has ever been taken out of Louisville. The car is a new one and had just been sent by the Pullman Palace Car Company to this section of the country. It is built of South American mahogany and is thoroughly up to date in every detail of its equipment.

The coach is 70 feet in length and contains but 12 apartments. It is provided with folding beds, folding wash stands and many conveniences that are entirely new in the sleeping cars used in this section of the country.

Employees of the Pullman Co. are expecting new uniforms to arrive. Recently the company required its car cleaners to wear uniforms, and also when the order was issued announced that three uniforms would be presented to each one.

Bolivian railroads are after American capital.

The average passenger haul on steam railways has increased from 28 to 27 miles since electrical lines have been competing for suburban business.

The graders on the Alaska Central railroad, 14 miles inland from Seward, have run into what seems to be an extensively valuable deposit of copper and gold ore.

There are about 200 railway companies in England and Wales alone, and about 25 each in Scotland and Ireland, making a total of fully 260 separately constituted companies.

The Brotherhood of Locomotive Engineers is agitating the abolition of or a change in the present system of mail cranes. Several engineers have been struck and killed recently by the device.

Every Danish state locomotive that has gone for some years past into the shops for repairs has had its wheel peripheries gauged, and, besides less wear with large wheels, it is found that single drivers run better than four coupled, and four than six coupled, where the road is the same, and that, in each class, where the road is more flimsy, the wear is greater.

The Southern Railroad is now running passenger trains with the Pullman cars next to the baggage car and behind the Pullman come the day coaches and on the end is the mail car. The New Market wreck, in which over 80 people were killed, and the fact that not a single Pullman passenger was hurt, has convinced the railway officials that the heavy sleeping cars are dangerous on the end of the trains and that their weight helps to smash the lighter cars when there is a collision.

Contract has been let for the interior work of the new offices of the Louisville & Nashville Railroad at 221 North Cherry street, at Nashville, Tenn. The offices are to be furnished with Flemish oak and when completed they will be among the handsomest and best arranged quarters in the city. The work is being done very thoroughly and the offices will be occupied on January 1, 1905.

Guthrie has 20 passenger and 30 freight trains every day, an average of a train every half hour in the day and night. What other little town in the State can say as much? This carries with it an argument. Any town with the railroad facilities Guthrie has will naturally get business. Be it said to the credit of our local railroad men of every grade and class that they compare favorably with any polite, attentive to business and loyal to their company's interests.

Theo. Schmidt is running the pile driver engine for a few days at this time.

William C. Walsh, master mechanic of the Indiana Southern R. R., at Bedford, Ind., was the guest of his parents in Howell last week.

The Big Four is erecting a new round house at Benton Harbor, Mich.

Henry Steincamp, a carpenter, was struck on the head last week by a roofing board falling from top of a car, inflicting a scalp wound.

William Murray, the mighty oil man, was on the Divisions a few days last week.

It is stated that the Lake Shore & Michigan Southern is to establish a school for training firemen.

Jim Honihan, machinist helper in the Earlington round house, has resigned.

Engine 987, which was put on the dead track, with three others, at Howell last spring, account of dull business, has been put back into service.

Grease spots may be quickly removed from clothing with the aid of a small pair of scissors.

Fireman J. L. Lyons has been transferred to the transportation department as brakeman.

Says R. R. Jester in the "Railway Journal" for October: "The Pullman car conductor by the name of William M. Johnson has been rewarded by President Roosevelt for being polite, by being appointed an usher at the White House. I suppose that the President, like the rest of us, rarely finds a Pullman conductor who is courteous and polite, and was so surprised at the satisfactory service of Mr. Johnson that he decided to reward him for being one of a very few. Let us hope that this will be a pointer for the hundreds of icy Pullman conductors who have driven patronage from the sleepers with their frosty service, and awaken to the importance of acting civil at least."

A LIMIT TO FORBEARANCE.

Russell E. Gardner, of St. Louis, will make an Excursion to His Rule and Precept as Embellisher.

St. Louis, Oct. 9.—Russell E. Gardner, president of the Banner Buggy Co., will make the first variation from his rule not to prosecute his employees who defraud him or embezzle money from him. Heretofore he has always reinstated the erring man if he seemed repentant, and allowed him a chance to redeem himself.

"The exception will be made when he secures a warrant against Ban Gager, formerly a bookkeeper for the Banner Buggy Co., who confesses that he has embezzled \$441.

Gager says that he took the money in small amounts, never more than \$100 at a time, and that he has spent all of it.

"This is the third time that Gager has robbed us," said Mr. Gardner. "On both the other occasions we allowed him to resume his work, still believing that we might make a good man of him. We will endeavor to make him serve a good purpose by making an example of him."

PRINCIPLE BEFORE PROFIT.

A Quaker Firm Declines to Quote Prices on Goods to the War and Navy Departments.

Washington, Oct. 9.—Quakerism is stronger with a certain firm of Philadelphia leather manufacturers than is business. A Washington contractor recently requested this firm to quote him prices on leather belting for use in the United States navy. He has received a letter from the head of the firm, a well-known Quaker, who says: "Replying to thy inquiry for price on belt for the navy department, we would say that, as members of the society of Friends, we are advocates of peace, and feel that it is more consistent with our principles not to attempt to make money by selling it to the war and navy departments. We are naturally glad to do business, and would say that this is purely a question of principle with us."

Ignorant School Children.

In a class in a Manchester school not one of the children knew what a bee was. This statement was made at Norwich the other day at the conference of the Museums Association by Mr. Pritchard, of Boston, America. The ignorance in his own town was even greater. Statistics showed that 77 percent of the school children there had never seen a crow, 57 percent had never beheld a frog, 20 percent had not seen a butterfly, 94 percent did not know an elm tree, 75 percent did not know what season of the year it was, and 50 percent could not say what butter was made of.—London Tit-Bits.

District No. 10 Notes.

Madisonville, Ky., Oct. 10, 1904. EDUCATIONAL EDITOR BEE, EARLINGTON, KY.

We opened school at District No. 10 on Monday, Aug. 15, with an enrollment of 22 pupils. Up to date the enrollment is 32.

The trustees were all present, had the house nicely cleaned, welcomed us back to resume our position, and gave us the assurance that they were our friends and our support in the work.

We are very pleasantly situated.

All the children have their new books, and are very much enthused in their contents. They all seem to be earnest, enthusiastic workers.

The hand of death has plucked from the midst of our school one of youth's bright flowers, Miss Gatty Hawkins. She was about thirteen years of age and the daughter of Mr. and Mrs. Charlie Hawkins. Her sweet and amiable disposition won the love and admiration of her many friends.

We sadly miss thee, Gatty,
Your voice so sweet and dear;
Thou welcome friendly footsteps
We nevermore shall hear.

I know we loved thee dearly,
But Jesus loved thee best,
And in His tender mercy
He called thee home to rest.

MINORA PINKSTON, Teacher.

Discipline.

The underlying principle of discipline is self control. We do not send our children to school to be disciplined, but rather to learn to discipline themselves. It is better to have discipline to come from within than to be enforced from without. It is the direction of a child's mental energy rather than the impression of a child's physical energy. The true conception of the discipline of a school room is that which keeps each pupil so busily employed that he has not inclination to infringe on his neighbor's rights. The earliest teaching should be purely negative; it consists not in teaching truth or virtue, but in shielding the heart from vice and the mind from error.

Effect of Literature in the School Room.

The teacher should be a well read person. I am convinced of this for the reason that a child sent to a union school and put in a department where the teacher possessed no literary culture made no progress; yet the teacher was noted for discipline; she would drill a pupil in reading and spelling, as it seemed, to perfection.

But this child was cheered by hearing that in the next department the teacher told them stories. After a year of much effort and many tears and trials she was promoted; her teacher, however, gave out that she was a dull child. But this did not prove to be the case; on the contrary, she excelled. The reason of this was that her imagination was appealed to; she was introduced to a number of interesting characters, such as Hamlet and Ivanhoe; her whole mental machinery was put into motion.

Her new teacher was a reader of literature; I mean by that of the best books in the English language, and she let her pupils read such books before and after school. Of course, most teachers do some reading, but it is so miscellaneous that it is not mind forming.—Eunice E. French in The School Journal.

True education avoids all one sided culture. Children have too often fared as plants in the care of an unwise gardener. Given light in abundance from one direction only, they have grown and flourished on one side, to the neglect and consequent deformity of the other, scarcely less important side. Until a few years ago they were trained in the classics, while the sciences, the things of Nature, were either entirely neglected or received but little attention. Most of their knowledge came the less direct way, through the memory rather than through the senses. Education has been too much a system of memorizing. Emerson complained, "We are students of words." What has been done by others in the past is hardly of greater importance than the learning "to do" in the present for the future.

Presidential Election Will Make No Change.

No matter which candidate is elected, Foley's Honey and Tar will remain the people's favorite remedy for cough, cold and incipient consumption. It cures colds quickly and prevents pneumonia. A. J. I then tried Foley's Honey and Tar and eight doses cured me." Sold by Jno. X. Taylor.

Was Not Ashamed.

A clerk and his country father entered a city restaurant recently and took seats at a table where sat a telegraph operator and a reporter. The old man bowed his head and was about to say grace when a waiter flew up singing, "I have beefsteak, codfish balls, and bull-heads." Father and son gave their orders, and the waiter again bowed his head. The young man turned the color of a blood-red beet, and touching his father's arm, exclaimed, in a low, nervous tone:

"Father, it isn't customary to do that in a restaurant!"

"It's customary with me to return thanks to God wherever I am," said the old man.

For the third time he bowed his head, and the telegraph operator panned in the act of cutting a beefsteak and bowed his head, and the journalist pushed back his fish ball and bowed his head, and there wasn't a man who heard the short and simple prayer that didn't feel a more profound respect for the old farmer than if he had been President of the United States.

The Girl Who Works.

God bless the girl who works. She is brave and true and noble. She is not too proud to earn her own living or ashamed to be caught at her daily task. She smiles at you from behind the desk or counter or dusting pan. There is a memory of her sewed up in the gown. She is like a brave mountain already far up the precipice—climbing, struggling, rejoicing. The sight should be an inspiration to us all. It is an honor to know this girl and be worthy of her esteem. Lift your hat to her, young man, as she passes by. Her hand may be stained by dish washing, sweeping, factory grease or printers' ink, but it is an honest hand and a helping hand. It stays misfortune from home; it supports an invalid loved one, maybe; is a loving, potent, shield that protects many a family from the almshouse. All honor to the brave toiler. God bless and protect the girl who works.—Exchange.

Two New Warships.

The battleship Ohio, which is one of Uncle Sam's most powerful war craft, was given her official trial not long ago in Santa Barbara channel, off the coast of California, and while she did not secure the reward offered by the government for exceeding her limit of eighteen knots, she missed it by such a slight, a very slight, percentage as a landman might consider of no consequence. She is a magnificent vessel, and will add no little amount to the "moral arsenal" embodied in the United States navy. Another recent western event of importance in the naval world was the launching of the cruiser South Dakota in the waters of San Francisco bay. She is a sister ship of the recently launched California, and is expected to make a speed of twenty-two knots an hour. Governor Herreid and other South Dakota officials were present at the launching. Both of these vessels were built at the Union Iron Works, San Francisco.—Sunset Magazine for October.

Roosevelt on the Philippines.

If our opponents came into power and attempted to carry out their promises to the Philippines by giving them independence, and withdrawing American control from the islands, the result would be frightful calamity to the Filipinos themselves and in its larger aspect would amount to an international crime. Anarchy would follow; and the most violent anarchic forces would be directed partly against the civil government, partly against all forms of religious and educational civilization. Bloody conflicts would inevitably ensue in the archipelago and just as inevitably the islands would become the prey of the first power which in its own selfish interest took up the task we had cravenly abandoned.—Roosevelt's Letter of Acceptance.
